WORK EXPERIENCE

AgroStar, *Pune*
Role: SDE-I
May 2022 - October 2023

- Led UI projects, collaborating with diverse teams to create user-friendly interfaces.
- Worked on internal and external projects.
- Migrated one project from AngularJS to ReactJS, and extra features were added to improve the user interface and make it mobile responsive.
- Worked on a B2B user app where we developed e-commerce capabilities and integrated critical functionality for our client, including bulk image upload, order return, user complaints flow, etc.
- Worked with the team that handles production issues, which requires analyzing the problems and, based on priority, releasing hotfixes for them.
- Integrated CleverTap to monitor users' actions and Sentry to receive alerts for issues from web applications.
- Implemented a JavaScript bridge that allows communication between Android apps and Web View.
